Frances Brooke (1724-1789), journalist, translator, playwright, novelist, and even co-manager of a theater, was described as "perhaps the first female novelist who attained a perfect purity and polish of style." Today, Brooke is known primarily for The History of Emily Montague, one of the earliest novels about Canada, where she lived for a number of years. But it is her third novel, The Excursion, that is an important example of the fashionable and popular English novels of the late 1770s. Written for the very audience it portrays, this novel introduces the heroine, Maria Villiers, to London's "gentle" society and its glittering pastimes. Brooke drew upon the English courtship novel in the tradition of Eliza Haywood, Henry Fielding, and Frances Burney for her novel's overarching plot structure. But instead of concentrating on Maria's romantic adventures, she experiments with unusual treatments of subplots and unconventional characters. The most interesting aspect of her story is the development of Maria's ambition to win fame and fortune as a writer; it is one of

the few portraits of a woman with literary ambitions by an early woman writer. Brooke's wry narrative voice foreshadows that of Jane Austen. The editors' introduction places *The Excursion* firmly in the tradition of the English novel, provides a fresh biography of Brooke, and brings together the most important eighteenth- and twentieth-century criticism of Brooke's work. The second volume in the series *Eighteenth-Century Novels by Women*, *The Excursion* contributes to our understanding of the development of the novel and offers a lively view of women's position in eighteenth-century English society.

A historical adventure set during the Hundred Years' War. The story follows a young man as he leaves the shelter of an abbey in England and becomes involved with Edward, the Black Prince's campaign in Spain. Doyle later wrote a prequel, titled "Sir Nigel", concerning the early life of one of the heroes in this novel. "We go to France, and from thence I trust to Spain, in humble search of a field in which we may win advancement and perchance some small share of glory. For this purpose I would have you know that it is not my wont to let any occasion pass where it is in any way possible that honor may be gained. I would have you bear this in mind, and give great heed to it that you may bring me word of all cartels, challenges, wrongs, tyrannies, infamies, and wronging of damsels. Nor is any occasion too small to take note of, for I have known such trifles as the dropping of a gauntlet, or the flicking of a breadcrumb, when well and properly followed up, lead to a most noble spear-running." - Sir Nigel, "The White Company".
