Bonus Chapters 14-17 Student Companion Website - Cases Student Companion Website - Appendix A Student Companion Website - Appendix B Corrections Fundamentals of Healthcare Finance, in its second edition, continues to be ideal for individuals needing basic healthcare finance skills. This easy-to-read, content-filled book presents a broad overview of healthcare finance, but focuses on tasks that are essential to the operational management of clinical services, including estimating costs and profits, planning and budgeting, analyzing new equipment purchases, using metrics to monitor operations, and working with financial statements. To assist the learning process, this book includes critical concepts, practical scenarios, self-test questions, industry-practice sidebars, and a running glossary. The second edition has been thoroughly updated, including its many real-world examples. In addition, a section on healthcare reform has been added that includes discussions of value-based purchasing, bundling, accountable care organizations, and medical homes. Additional features in the second edition include updated accounting coverage that conforms to the latest AICPA formats and a new student engagement tool, For Your Consideration sidebars, which present scenarios designed to make students think about current, sometimes controversial, issues. Companion website includes: Bonus chapters that cover financial markets and securities; lease financing and business valuation; distributions to owners; and capitation, rate setting, and risk sharing Appendixes of financial and operational ratios and their definitions Introductory, real-world cases with questions intended for either self-directed learning or in-class use Companion casebook Cases In Healthcare Finance, Fifth Edition is an ideal supplement to this text. Through real-world cases, it provides the opportunity to bridge the gap between learning concepts in a lecture setting and applying these concepts on the job. Be better prepared to deal with the multitude of issues that arise in the practice of healthcare finance.

The essential concepts of both accounting and financial management are covered in this best-selling healthcare finance book. Through clear explanations, numerous examples, and realistic practice problems, it arms future managers with the grounding they need to make financially sound decisions for their healthcare organizations. This thoroughly updated edition provides more emphasis on the unique marketplace for healthcare services and additional examples from nonhospital settings, including medical practices, clinics, home health agencies, nursing homes, and managed care organizations.

Instructor Resources Case questions and solutions, complete instructor versions of the spreadsheet models, PowerPoint slides, and a transition guide to the new edition. Student Spreadsheets (click here for access) With this casebook, students have the opportunity to apply finance principles and concepts to settings that simulate actual work environments. In that way, the book allows instructors to create a bridge between academic learning and applied practice. Each of the 32 finance cases presents a scenario and relevant background on a healthcare organization and poses a financial management issue that students must analyze in order to recommend appropriate courses of action. The majority of cases are accompanied by spreadsheet models to help students perform the required analyses. The casebook also contains seven qualitative mini-cases created to highlight the ethical dilemmas that occasionally arise in the practice of healthcare finance. Important changes to this edition: All cases have been updated, and many have been revised extensively, including new exhibits, timely topics, and new calculations Two new cases have been added to the book: One focuses on bond refunding and the other covers revenue cycle management A new mini-case focuses on the potential ethical conflicts involved with physician-owned distributors (PODs) The PowerPoint slides have been changed to allow instructors to first present a short introduction to the case and then, after students have completed their analyses, review each case by discussing three key learning points
