main changes in the  
new book are: New  
Material: Apart from  
one new chapter  
there are

Examples and Matlab code now appear on a gray background for easy identification and advanced material is marked with an asterisk. The book is intended to be self-contained. No previous knowledge of multi-sensor data fusion is assumed,

although some familiarity with the basic tools of linear algebra, calculus and simple probability is recommended.

Although conceptually simple, the study of multi-sensor data fusion presents challenges that are unique within the education of the electrical engineer or

assortment of  
different processes  
which bear no  
relationship to each  
other. In contrast, in  
this book the  
processes are unified  
by using a common  
statistical framework.  
As a consequence, the
