The Nissan HR16DE engine is the result of Renault's K4M engine evolution. Renault cars also were fitted with this engine but under other the different name - H4M. The new engine came to replace the old QG16DE engine. The HR16DE has variable valve timing system on the intake camshaft, the electronic throttle, and two fuel injectors per cylinder. conquest.tsi : was this car for sure made in 1999 ...

Nissan qg15 engine timing marks - qer.spesabenessere.it

Many standard DOHC Nissan engines featured Variable Valve Timing, such as the VG30DETT, and as such do not use the "V" designation. "V" designation is only if the engine has variable valve lift. A good example of an engine where not all of the feature designation spots are used is the L28ET engine. The two features listed are electronic port fuel injection designated with the "E" and the ...
