Abandoned. Hunted. Out of control. Gethyon Rees had always felt at odds with the universe, and hoped for an escape among the stars. But discovering he has the ability to cross time and space with just a thought brings more problems than it solves: a deadly bounty hunter who can follow him anywhere, the unwelcome return of Tarquin Secker--the mother who abandoned him--and an ancient darkness that seeks him and all those with his talents. When an unforgivable act sets him on the run, it'll take more than his unearthly powers to save his skin and the lives of those he cares about. It'll take a sacrifice he never expected to have to make. A science fiction adventure novel previously published by BURST (Champagne Books), and part of the Travellers Universe. A 2014 SFR Galaxy Award Winner for Most Awesome Psychic Talent and a 2015 EPIC eBook Awards finalist in the Science Fiction category. Also now includes the SF short story The Bones of the Sea.

A seductive tyrant. A lost hero. And a galaxy about to fall... It's been a year in paradise for Keir and Quin, but now the idyll is over. After Quin falls sick, they return to the hidden sanctuary of Lyagnius, and what she learns there will not only change their lives, but set them on a journey that could separate them forever. When Keir falls victim to a ruthless Nercaandi Empress bent on conquering the galaxy with her cybernetic army, it will take all Quin's diminishing powers and the help of her son to find him. But what waits for her aboard the tyrant's ship will test her strength and the limits of their love, and put everything she cares about at risk. Including Keir. With the galaxy itself about to fall, will she be able to save him? Book Two of the Redemption series and part of the Travellers Universe.

A woman determined to save him. Able to cross space and time with a wave of her hand, Tarquin Secker has spent eternity on a hopeless quest. Drawn by a compulsion she can't explain, she risks her apparent immortality to save Keir, and offers him sanctuary on her home-world, Lyagnius. But Quin has secrets of her own. When Keir mistakenly unleashes the dormant alien powers within him and earns exile from Lyagnius, Quin chooses to stand by him. In a city where Dark Technologies Inc. now runs the show, Kadie Williams has more immediate concerns than the fall of Blaze, their guardian superhero. Almost every morning for the last few months she's woken up with cuts and bruises on her body, and no idea how she got them. There are no nightmares. No evidence that she sleepwalks, or any sign of a break in. And nothing to tell her who's been cleaning up after her. As just one of thousands of civilians conscripted to slave away in the labs of Professor Dark, she knew there'd be trouble ahead. But she never expected it to be so bad, or so personal. Desperate for answers, Kadie looks to the new defender of the night, the only person who can hinder the total domination of Professor Dark-Nocturnelle. The mysterious vigilante superhero came from nowhere with her cybernetic sidekick Shadow, set on putting an end to the brutality of Dark's regime. But as his laboratories work on a new secret super-weapon, Nocturnelle and Shadow may not be enough to save Nephopolis...or to save Kadie either.

Given the choice between Love and Duty, which does one sacrifice for the other? When a former lover with a score to settle nearly brings Blade Devon's charmed life to an end, he seeks refuge -- and some time to lick his wounds -- with an old friend...leaving the woman he loves behind. Bo Barron is no frail flower, despite her masquerade as Blade's Joy Babe Mistress. She straps on her sidearm and goes off alone to track her missing father, kicking off a search that stretches across the galaxy - from the lair of the gruesome Rex, a clone with a taste for sentient biomatter, to Rogue's Cross, the most dangerous space station in the outer Commonwealth. Someone close to her doesn't want Bo's father found. To make matters worse, the First Sector Overlord orders Blade's holofeature career over and Bo out of his life for good. Surrounded by betrayal, Bo and Blade turn to each other...but the secrets he protects threaten to tear them apart. One way or another, returning Bo's father to his rightful place and following their hearts will mean HERO'S END.

'Magnificent. Narrative history at its vivid and compelling best' Fergal Keane The first major history of the International Brigades: a tale of blood, ideals and tragedy in the fight against fascism. The Spanish Civil War was the first armed battle in the fight against fascism, and a rallying cry for a generation. Over 35,000 volunteers from sixty-one countries around the world came to defend democracy against the troops of Franco, Hitler and Mussolini. Ill-equipped and disorderly, yet fuelled by a shared sense of purpose and potential glory, disparate groups of idealistic young men and women banded together to form a volunteer army of a size and kind unseen since the Crusades, known as the International Brigades. These passionate liberal fighters – from across Europe, China, Africa and the Americas – would join the Republican cause, fighting for over two years on the bloody battlegrounds of Madrid, Jarama and Ebro. Were they heroes or fools? Saints or bloodthirsty adventurers? And what exactly did they achieve? This is a story rendered vivid in the writings of Orwell and Hemingway, the paintings of Picasso and the photographs of Taro and Capa. But here, in this magisterial history, award-winning historian Giles Tremlett tells – for the first time – the story of the Spanish Civil War through the experiences of this remarkable group of people. Drawing on the Brigades' extensive archives in Moscow, Comintern documents and first-hand accounts, Tremlett captures all the human drama of an historic mission to halt fascist expansion in Europe. A fascinating history of resistance, *The International Brigades* shows just how far ordinary people will go to save

democracy against overwhelming odds in a tale of European solidarity that resonates just as strongly today.

If you believe the rumors you know that Doctor Charm, the wickedly sexy super villain, retired in shame seven years ago after his last fight with the super hero Zephyr Girl. The fact that the charming Evan Smith-father of four and husband of the too-beautiful-to-be-real Tabitha-bears a resemblance to the defeated Doctor is pure coincidence. And, please, ignore the minions. Everything is perfect in the Smith household, until Tabitha announces her return to work as a super hero. Evan was hoping to keep her distracted until after he rigged the presidential election, but-genius that he is-Evan has a backup plan. In his basement lab, Evan has a machine whose sole purpose is keeping Tabitha hungry for him. But children and labs don't mix. The machine is broken, and Tabitha storms out, claiming she no longer knows him. World domination takes a back seat to meeting his daughters' demands to get Mommy back right now. This time his genius isn't going to be enough-he's going to need both his evil alter-ego, and the blooming super abilities of his children to save his wife. But even his most charming self might not be enough to save their marriage.
